Window Treatment Trends

Refreshing your décor doesn't need to be a complete overhaul. Updating your window dressings and soft furnishings to the latest styles not only makes a statement within your living spaces, it's a much more affordable way of being fashion forward with your décor.

Be inspired by the upcoming interior trends that can be incorporated into any window dressing.

Bring the outside in

CREATE AN INDOOR-OUTDOOR LIVING SPACE WITH A BLISSFULLY BOTANICAL STYLE.

Tropical green hues, subtle animal prints, wooden materials and earthy tones bring this trend together to create a style that can be adapted towards both modern and traditional décor schemes.

A look of luxury

COSMIC COLOURS THAT GIVE A SENSE OF SPIRITUALITY ARE EVOLVING INTO A GLAMOROUS TREND.

Adding dark purples or deep blue to your rooms creates a sophisticated feel, and finishing off these looks with metallic accents and gold accessories adds a touch of luxury. This striking trend will transform an ordinary interior into an extraordinary place to live.

Retro Scandi style

A MODERN TWIST ON 60s STYLE IS EMERGING IN ALL ASPECTS OF DESIGN.

There's no reason why it shouldn't feature on your window treatments too. Think micro-prints, tile repeat patterns and woven textiles. This nostalgic palette of navy, hazel, teal and burnt orange creates high-contrast combinations.

Stylish serenity

YOUR HOME SHOULD BE YOUR SAFE HAVEN, WHERE YOU CAN RELAX AND UNWIND.

Through your décor you can create rooms that are the perfect place for tranquillity, by adding delicate greys and pinks, flowing line patterns and soothing blue tones.

Colour colliding

JAZZ UP YOUR LIVING SPACES BY COMBINING STATEMENT COLOURS WITH PATTERNS.

Draw attention to your window treatments through bold colour combinations. Clashing vivid yellows and bright pinks with confidence is sure to give a vibrant, joyful energy within your room.
